EDUCATION

Chandigarh University

B.E. in Computer Science

Aug 2021 – May 2025

CGPA: 8.04 — [Marksheet](#)

Govt. High School Chanpatia

Intermediate

May 2017 – May 2019

Percentage: 76.2 — [Marksheet](#)

INTERNSHIP

Software Development Intern — Bluestock.in

Jan 2025 – Feb 2025 — [Project Link](#)

- Developed a Health Record Management System using **Java, JDBC, and SQL** as part of backend development.
- Implemented secure login, JWT authentication, and CRUD modules for patient records.
- Integrated MySQL with Java application for handling data storage and retrieval.

Trainee — L&T Technology Services

Jul 2025 – Aug 2025

- Completed industrial training on **Java, SDLC, Agile Methodologies, Git, and Linux**.
- Gained practical exposure to software development processes and collaborative version control.

PROJECTS

Bank Account Management System | *Java, Swing, SQL, JDBC, AWT*

Oct 2024 – Dec 2024 — [GitHub](#)

- Developed a desktop application for managing bank accounts with modules for account creation, balance inquiry, fund transfer, and transaction history.
- Implemented role-based authentication, enhancing security and reducing unauthorized access by **30%**.
- Optimized database connectivity using JDBC with MySQL, improving query execution speed by **20%**.
- Applied modular design principles, increasing code reusability and maintainability by **25%**.

Student Management API | *Java, Spring Boot, Spring Data JPA, RESTful APIs*

Jul 2025 – Aug 2025 — [GitHub](#)

- Built a scalable **RESTful API** to manage student records, supporting full CRUD functionality.
- Implemented layered architecture (Controller → Service → Repository), improving project maintainability by **35%**.
- Achieved **90%+ unit test coverage** using JUnit and Mockito, ensuring reliability and bug prevention.
- Streamlined record management workflows, reducing manual handling efforts by **40%**.

Electronic Store | *Java, Spring Boot, Spring Security, JWT, JDBC, MySQL*

Aug 2025 – Present — [GitHub](#)

- Designing a scalable e-commerce application with product catalog, shopping cart, and order management features.
- Implementing **Spring Security with JWT authentication** for role-based access control, improving system security by **40%**.
- Exposing REST APIs for catalog, cart, and order operations, ensuring seamless integration with frontend systems.
- Following layered architecture and Agile methodology, improving code maintainability and scalability by **30%**.

TECHNICAL SKILLS

- **Languages:** Java, C, C#, SQL, HTML, CSS, Dart
- **Backend:** Spring Boot, Spring MVC, Hibernate, JPA, JDBC, RESTful APIs, Swing
- **Frontend/Mobile:** Flutter
- **Security:** Spring Security, JWT
- **Databases:** MySQL, MongoDB
- **Tools & Platforms:** Docker, Git, GitHub, IntelliJ IDEA, Eclipse, Android Studio, VS Code, MySQL Workbench, Postman
- **Concepts:** OOP, Multithreading, Collections, DSA, DBMS, SDLC, Agile Methodologies

CERTIFICATIONS

- Master Spring Boot with Real-Time Projects — [Durgesh Tiwari](#)
- Java OOP with Exercises — [Udemy](#)
- Java Collections Framework — [Udemy](#)
- SQL from Zero to Advanced — [Udemy](#)
- 100+ Java Coding Practice Tests — [Udemy](#)
- Flutter and Dart - The Complete Guide — [Udemy](#)
- Coursera Top Performer Certificate — [View Certificate](#)
